

# EOS/ESD Symposium for Factory Issues

**Ferry (Tallink Silja)  
Round Trip between Helsinki and Stockholm.  
October 12 – 14, 2016**

The EOS/ESD Association and STAHA, the Finish ESD Association, are organizing the 2nd European ESD Symposium for Factory Issues on the ferry between Helsinki (Finland) and Stockholm (Sweden). This is the first time that both organizations cooperate to hold a Symposium that is not touching the topics of on-chip protection or device testing problems but solely focusing on protection issues during handling, assembly, testing and transport. Since production people often have difficulties to get long distance travels approved this event is brought to the factories. To make it a European event, other independent ESD associations from Europe are helping to set this event up.

## Call For Presentations Abstract Submission Deadline April 29th, 2016

### Submission Instructions

Your abstract (two pages including reasonably sized figures) must clearly present the data and the significance of the results. Please e-mail your presentation abstract including title, author affiliation, and e-mail address to [info@esda.org](mailto:info@esda.org) by the April 29th, 2016 (Friday) deadline. The submission format is a PDF® file (Adobe Acrobat®). Notification of acceptance will occur by May 20th, 2016. Final, full presentations for the EOS/ESD Symposium for Factory Issues in MS PowerPoint® format must be received by September 2nd, 2016. These MS PowerPoint® slides will be included in the presentation handout that will be distributed during the Symposium. There will be no published proceedings of the Symposium. Technical papers that have been previously published may be considered.

For questions please contact the Technical Program Chair: Pasi Tamminen at: [pastammi@live.com](mailto:pastammi@live.com)

For more information and registration please visit the ESDA website at [www.esda.org/ESDSymposiumFactory.html](http://www.esda.org/ESDSymposiumFactory.html). Additional information available at the STAHA website at [www.staha.fi/ESDSymposiumFactory.html](http://www.staha.fi/ESDSymposiumFactory.html)

Please visit the web page at <http://www.esda.org/ESDSymposiumFactory.html> for regular updates on the Symposium. As it becomes available, we will post information on the full technical program including seminars, technical sessions, and exhibits. Visit the web page for information on the EOS/ESD Symposium for Factory Issues registration, Helsinki, Finland and the surrounding area.

The EOS/ESD Symposium for Factory Issues would like you to consider abstract submission topics such as:

### I. EOS/ESD Factory Level and Materials Technology

- Packaging and Handling
- Case Studies, Reviews and Analysis
- Test Methods and Procedures
- Troubleshooting Techniques
- Air Ionization and Uses
- Facility Design
- ESD Shunting Packaging Technology
- ESD Control Materials
- ESD Detection and Measurement Techniques
- Management Issues (cost/benefit analysis etc.)

### II. EOS/ESD Standards – Components, System, Factory & Materials

- Test Methods and Procedures
- Standards - Comparisons and Analysis
- ESD Control Program Development
- Case Studies
- Round-Robin Testing, Results and Analysis

### Management Committee:

#### Local Management Committee:

- Reinhold Gaertner, Infineon Technologies  
John Kinnear, IBM  
Jari-Pekka Leskinen  
Terttu Peltoniemi, Nokia  
Toni Viheriäkoski, Cascade Metrology  
Lisa Pimpinella ESDA Executive Director

#### Technical Program Committee:

- Pasi Tamminen, Tampere University of Technology, Tampere, Finland (TPC Chair)
- Toni Viheriäkoski, Cascade Metrology, Lohja, Finland
- Matti Murtooma, Turku University, Finland
- Reinhold Gaertner, Infineon Technologies, Munich, Germany
- Wolfgang Stadler, Intel Mobile Communications, Munich, Germany
- Paul Holdstock, Holdstock Technical Services, Manchester, UK
- Jeremy Smallwood, Electrostatic Solutions, Southampton, UK
- Lars Fast, SP, Sweden
- Bas Grootemat, Kingsize Consultancy, Oostrum, Netherlands
- Giuseppe Reina, EL.BO. Service, S.Lorenzo - Parabiago (MI), Italy
- John Kinnear, IBM, Poughkeeps, NY, USA

### Co-Sponsored by:

**IOP** Institute of Physics  
Dielectrics and  
Electrostatics Group
