

2016 International Electrostatic Discharge Workshop

Call for Open Posters

May 17-19, 2016

Evangelische Akademie, Tutzing, Germany

<https://www.esda.org/events/iew/>

Did you miss the submission deadline for reviewed posters? You can bring an open poster!

In parallel to our reviewed poster sessions, all workshop participants are encouraged to present open posters to discuss the latest developments in their work. Use this opportunity to discuss new results with your peers before they are in publishable form.

The IEW invites contributions that highlight particularly challenging requirements, unique/novel solutions to meeting those requirements, or unexpected interactions between an ESD implementation and another design requirement. The IEW especially invites submission of late-breaking exciting new research to stimulate discussion and interaction around new ideas, encouraging new research topics.

The IEW encourages student submissions by providing a 50% discount in registration fees for a limited number of student presenters. Proof of student status must be submitted prior to registration.

Note: Open Posters are not a part of the Attendee handout

Yes! I am attending and bringing an open poster! [Return to info@esda.org](mailto:info@esda.org)

Last Name: _____ First Name: _____

Company Name: _____
